

We the People

of the more domestic Tranquility, provide for the common Defense, and secure the Blessings of Liberty to ourselves and our Posterity, do hereby constitute and establish this Constitution for the United States of America.

We, the people of Tulsa say, "Stop the attacks against our city."

Like you, we believe in the U.S. Constitution and the right to free speech. However, we also believe in the truth, the whole truth and nothing but the truth.

Local labor unions and their out of state allies are protesting reputable companies and individuals in our community, the same companies that create jobs and have given back to Tulsa for decades.

The protests have often led to unfounded personal attacks.

These union interests have even used the local homeless population to carry out these attacks.

Free speech is a staple of our society, but untrue allegations are despicable and un-American.

Call the United Brotherhood of Carpenters and Joiners of America at (918) 628-0410 and tell them to **stop harassing the citizens of our community.**
