

IMPORTANT NOTICE

Recently the FAA has mishandled reports and information from within the M&E ASAP program violating the existing Memorandum of Understanding. The Transport Workers Union is strongly advising its members to contact one of the below listed experts prior to bringing forward any information that you may consider appropriate for ASAP

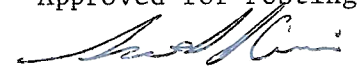

The Transport Workers Union is not discouraging the due diligence of its membership in identifying and correcting safety concerns; however, it is important that one of the experts below makes the determination of whether the report would be treated fairly in the current environment within ASAP before a report is submitted

The Transport Workers Union is working diligently to ensure that the integrity of the ASAP program is restored. Once the Transport Workers Union feels that the issues at the FAA AMR CMO are corrected, and trust is restored, open reporting will once again be encouraged
