

STAND TOGETHER RALLY

The Moral Basis of American Democracy is at Stake

Enough is Enough!

Some Oklahoma legislators want you to believe that Oklahoma's budget woes are directly related to our rights to democracy in the workplace. Those who provide necessities, 911 dispatchers, Street repair crew, Sanitation workers, Teachers, Firefighters, Police and more, are under attack. These workers have taken multiple cuts and made many concessions while continuing to maintain the basic needs of our cities. **For their dedicated work they are now being forced to give up more than just their earnings.**
