

Smart Shelters, an Oklahoma City based company, offers a patented storm shelter design that allows your family to seek refuge from any life-threatening storm in a safe, secure, and easily-accessible shelter. Our storm shelters have quickly become the best-selling shelters on the market because of their ability to be installed flush with your garage floor while allowing the vehicle to remain parked inside. Installation time varies from 3-5 hours depending on shelter size.

Smart Shelters would now like to offer special pricing just for Union Members.

**Union Member Discount Price List**

Regular Flush _____	\$2300.00 (non-discount price \$2995.00)
Large Flush _____	\$2500.00 (non-discount price \$3395.00)
Extra-Large Flush _____	\$3300.00 (non-discount price \$4295.00)
Jumbo Flush _____	\$3500.00 (non-discount price \$4895.00)
Super Outdoor Lids _____	\$500.00 (additional)

The prices listed above include installation, lifetime transferable warranty, and assumes the shelter will be installed in the OKC metro area. There is a one way trip fee for each mile over 30 from our OKC showroom of \$3.50 per mile. The prices are heavily discounted and will always be lower than any advertised price and are only available through this special employee incentive program. A \$300.00 deposit is required to reserve your spot on the schedule and the remaining balance is due at the time of install. We accept all major credit cards, checks, and cash as forms of payment. **To claim your Union Member Discount Rate you will need to specify the discount when ordering and present your membership card or dues receipt.**

***Shelter Being Installed***

***Flush Mount Shelter***

***Standard Shelter***

Each shelter and safe room is constructed to exceed the stringent standards dictated by FEMA, ICC, and Texas Tech to insure your family is safe during threatening weather. The shelters are coated with a thick layer of marine grade coal tar to protect it from moisture and soil acidity. A lifetime transferable warranty is included with each storm shelter or safe room that protects you if it should ever leak or float out of the ground.

The "Flush Mount" shelter is installed inside the garage. It's equipped with ball bearings to enable the door to open and close easily, battery operated fan/light combo, and lockable lid for storage of valuables. The outdoor shelter will stick out of the ground approximately 4" and comes equipped with a shock assist lid that makes it extremely easy to lift/close.

For people who prefer to be above ground or have health related mobility issues we offer metal safe rooms that can be secured to the concrete floor. In new construction homes the safe room can be positioned in a designated area otherwise it should be installed in the garage area or where it can have a protected covering
