4303 Ballots were sent to eligible voters. 160 Ballots were returned to TrueBallot undeliverable. 94 Duplicate ballots were sent to 86 unique voters at the request of the Local. 1982 Returned envelopes were registered against a list of eligible voters and any ineligible ballots were removed. 2 Envelopes were returned with no ID – Set aside and not counted. NO Voter(s) mailed in two (2) ballots; by rule, the second ballot of the two (2) was counted and the first was set aside as void. NO Ballots were returned with something written on the envelope and were not counted. Ballots were removed from their secret ballot envelopes and after empty envelopes were set aside. 1983 Ballots were counted. After ballots were registered, TrueBallot, Inc, opened the envelopes, optically imaged the ballots and processed them to tabulate the data. Rules were applied to the data so as to remove void data from the tally.
