# The Association.

THE TWU-IAM ASSOCIATION

Brothers and Sisters,

The Executive Negotiating Committee met face to face with American Airlines this week in Washington DC. Negotiations centered around the Fleet Service group and good progress was made working through outstanding language issues.

The Mechanic & Related/Stores Committee met internally for important discussions regarding the seniority article and they are pleased to report that significant and positive progress was made working through those complicated remaining issues. Our attention in the next scheduled negotiation will be on the Mechanic & Related/Stores open issues to sync us up to the progress made with Fleet language.

The entire negotiating team looks forward to using the solidarity of our 30,000 Association Members as we move into the more serious economic and scope discussions with the company in the near future.

**Negotiations are scheduled to resume on the following week: August 28<sup>th</sup>.**

Fraternally,
